

Impact of car sales and energy consumption on the climate

Country *
All

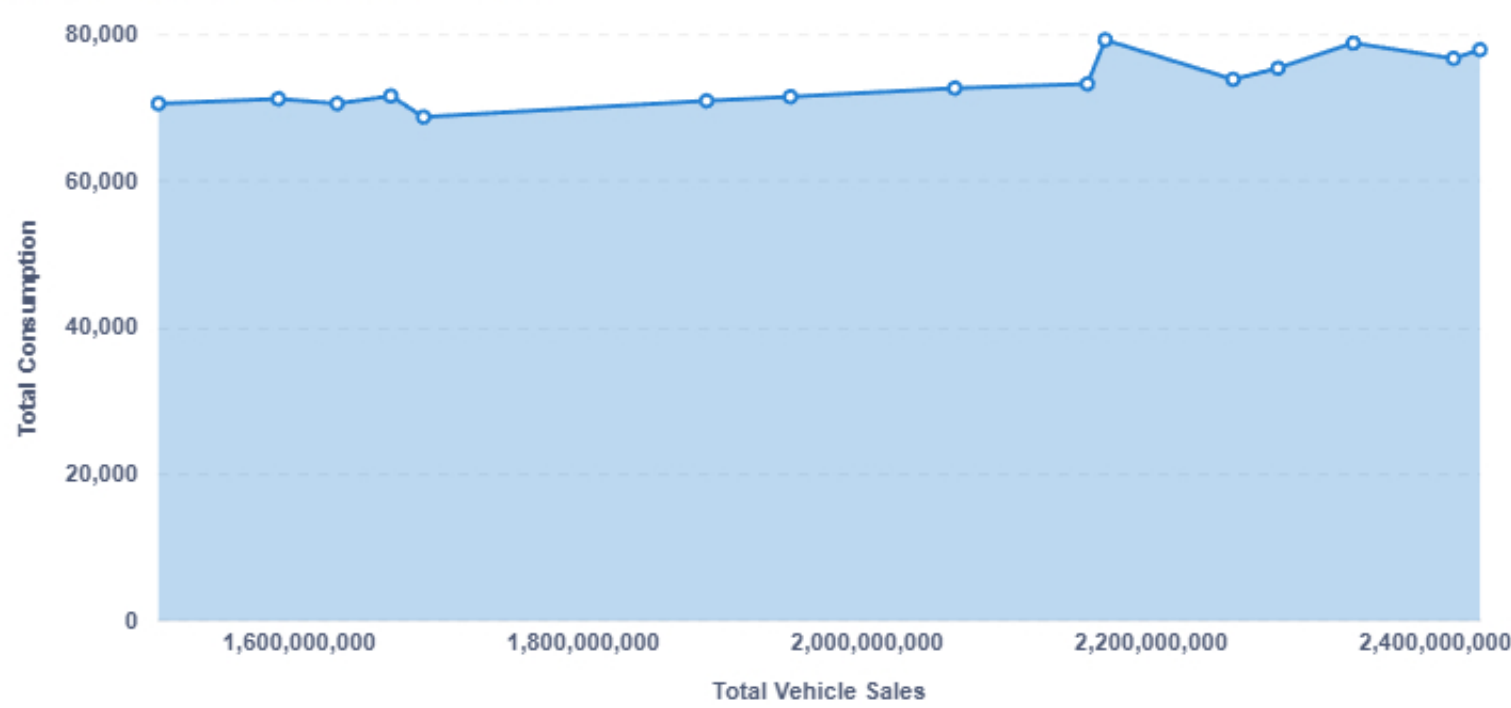

Start year *
2005

End year *
2019

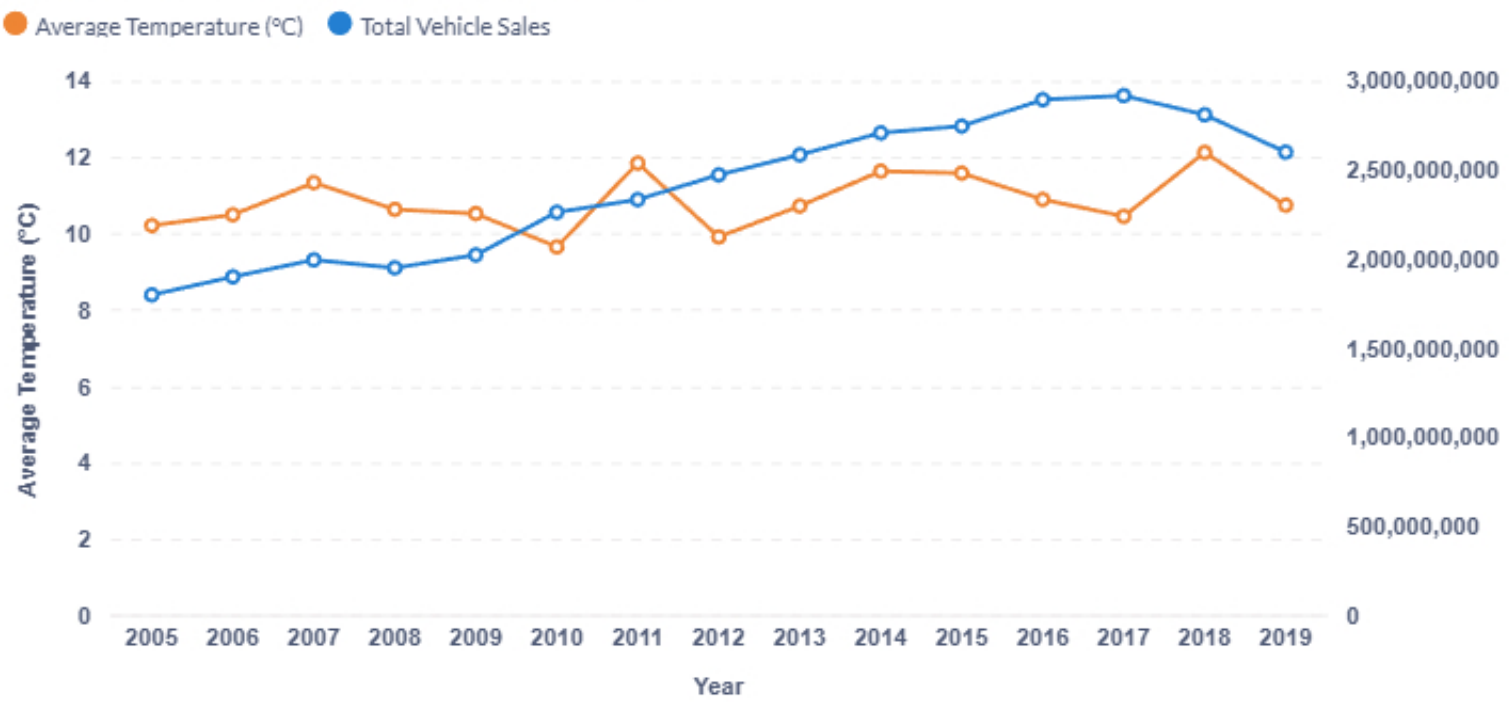

Total energy consumption by country (coal, oil, gas)

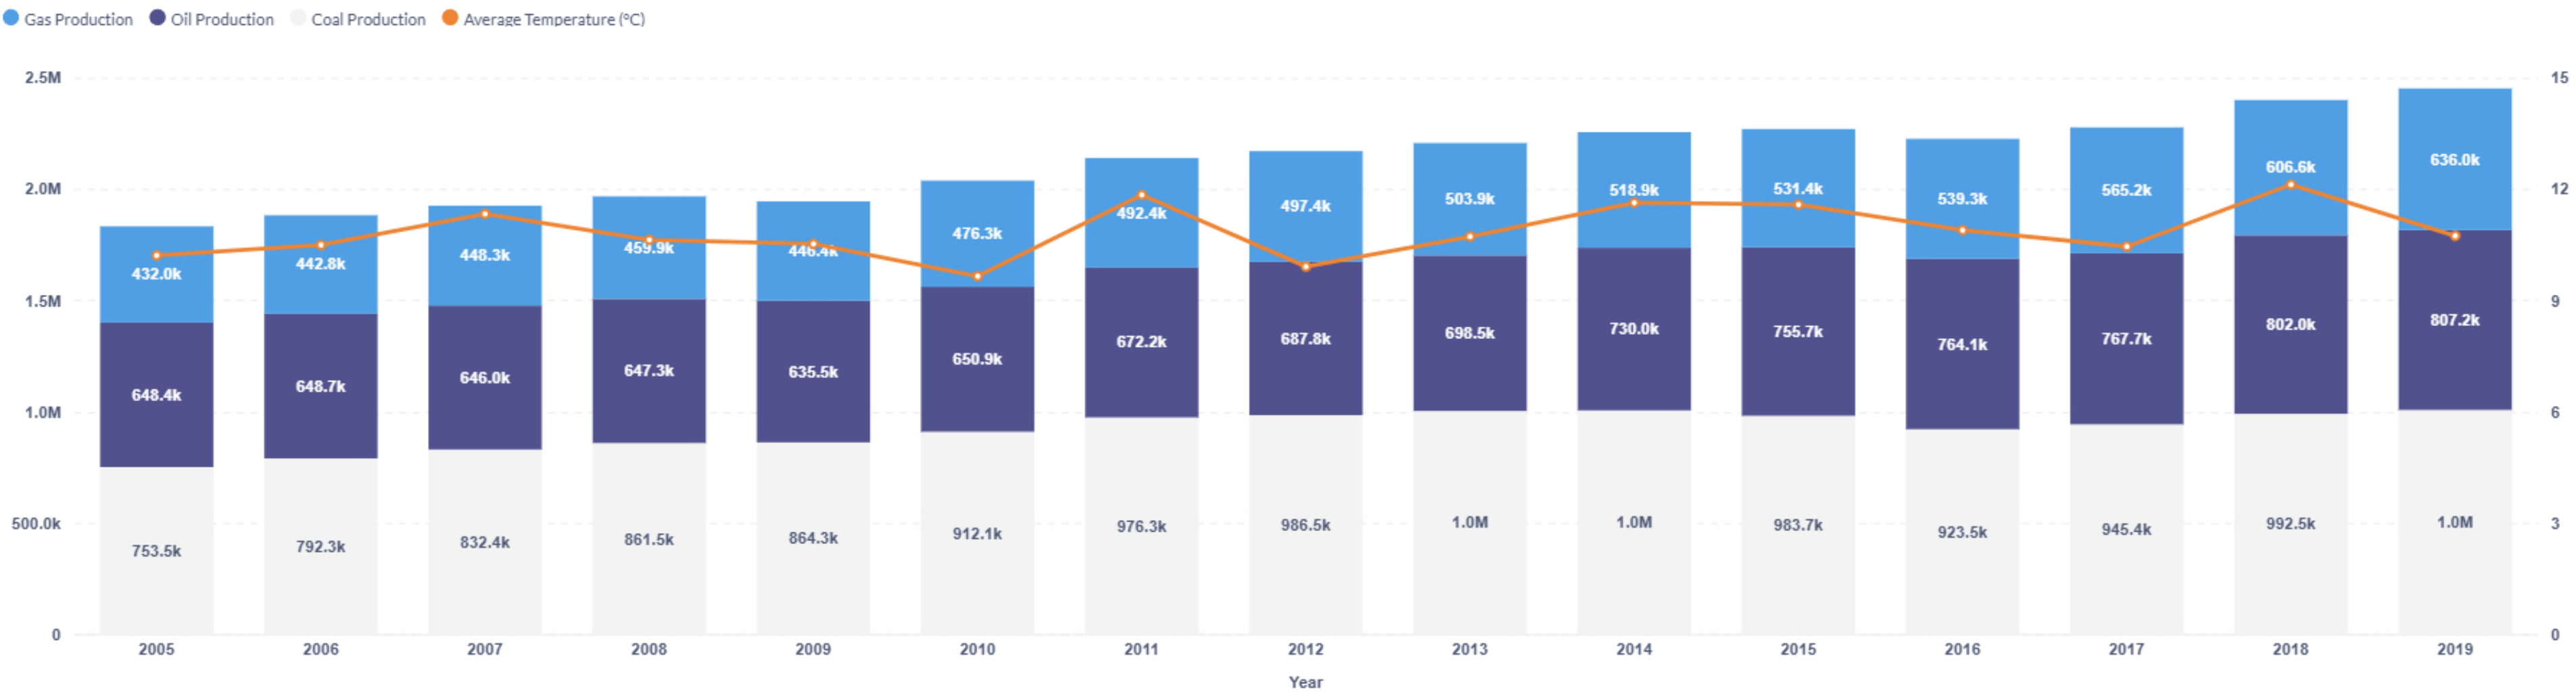

Correlation between car sales and emissions

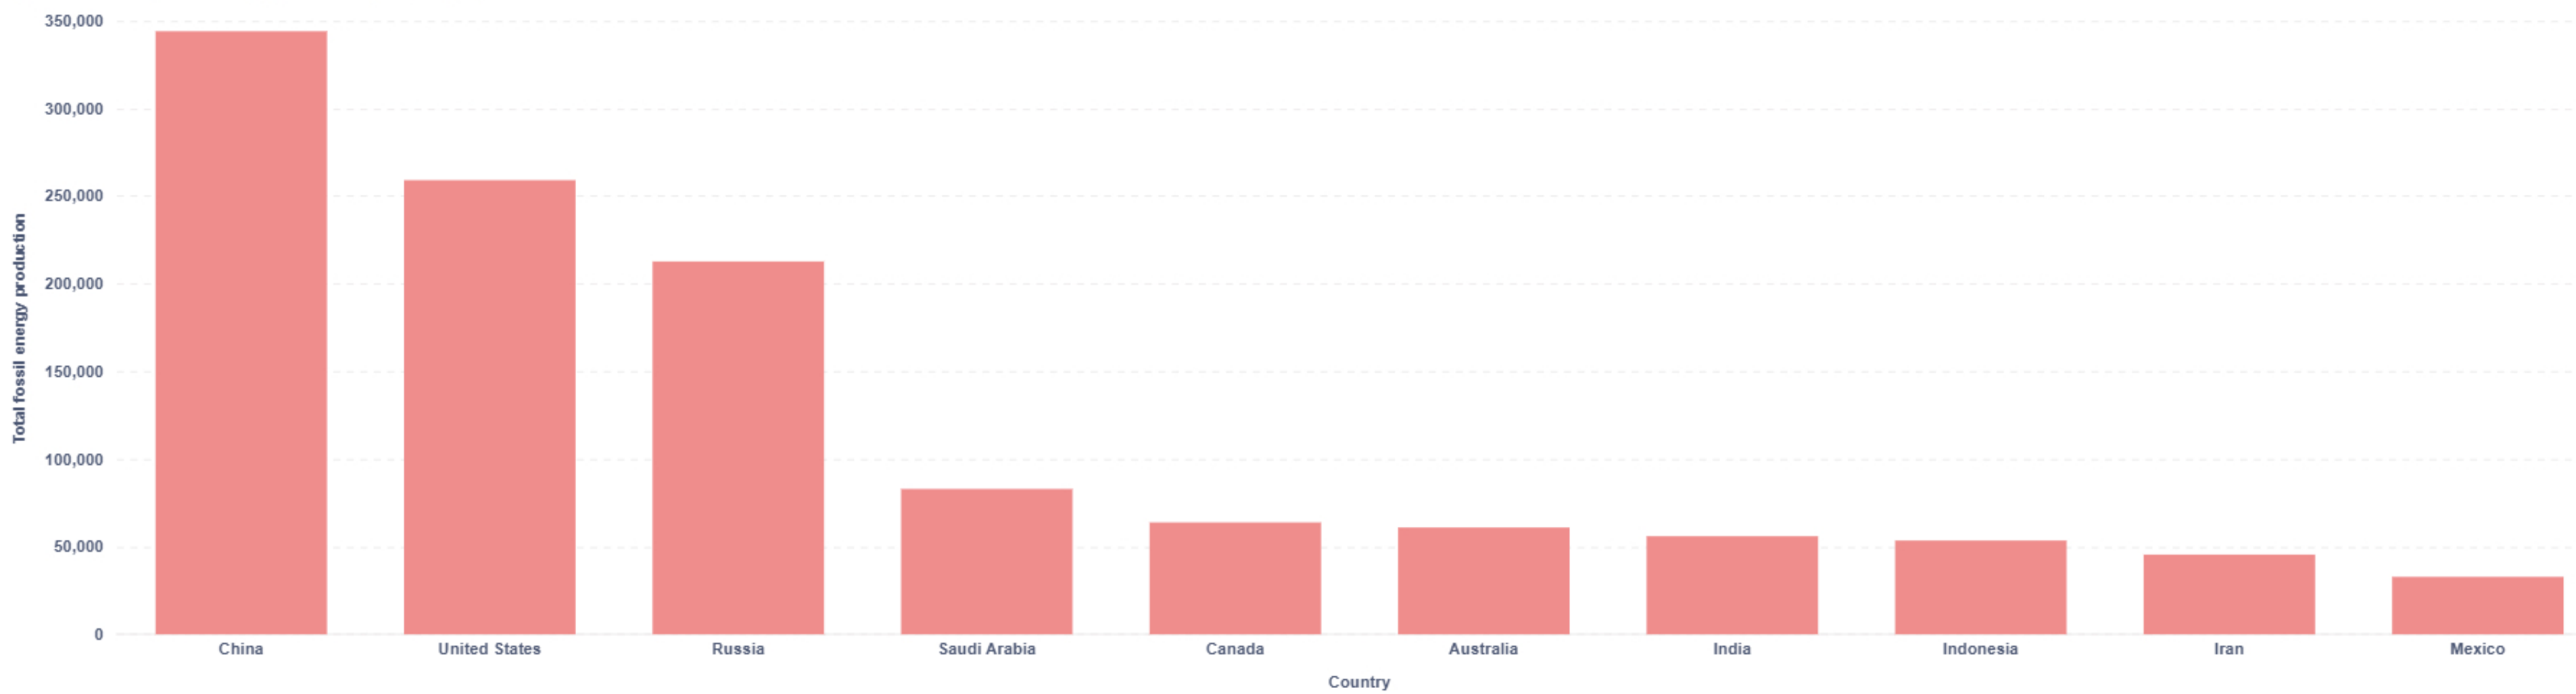

Link between global warming and vehicle sales over time

Relationship between average temperature and coal/oil/gas production (per year)

Top 10 countries by total energy production (coal, oil, gas)

Impact of car sales and energy consumption on the climate

Country * Start year * End year *

All 2005 2019

Energy and vehicle sales statistics by country and year									
Country	Year	Average temperature	Total car sales	Total coal production	Total coal consumption	Total gas production	Total gas consumption	Total oil production	Total oil consumption
Australia	2005	10.22	29,222,592	120,061.87	30,634.66	18,352.94	11,164.32	14,138.69	22,977.7
